

# Building A Windows PE Disk

the simplest example

- Install the WAIK *to c:\waik*
- Choose "Windows PE Tools Command Prompt"
- (If in Vista, rt-click and choose "Run as Administrator")

```
copy x86 c:\winpe
```

```
cd \winpe
```

```
oscdimg -h -n -betfsboot.com iso test.iso
```

- Burn test.iso to a CD-ROM
- We'll see another couple PE examples soon
